PLANNING YOUR CLEANPOWER 2023 EXPERIENCE

JOSE ANTONIO MIRANDA
ONSHORE PRESIDENT & CEO | AVANGRID RENEW

CLEAN
POWER.

A list of wind-related businesses exhibiting at the premier clean-energy trade show.

With CLEANPOWER 2023 focusing on wind energy, solar energy, and battery storage, looking for wind-only or wind-hybrid businesses might be challenging.

To help with your show decisions, *Wind Systems* offers this list of wind-related businesses exhibiting at the show along with their booth numbers.

The highlighted companies are part of the *Wind Systems* community, our online resource for locating products and

services that are exclusive to the wind-energy industry. These companies also have their wind-focused expertise and contact information included here.

If you'd like to be a part of our community section and have your company highlighted for our May issue that will be distributed at CLEANPOWER, contact Dave Gomez at dave@windssystemsmag.com.

For any late booth additions or changes, please refer to the floorplan at cleanpower.org/expo. ↗

ABB

Booth #: 4253

ACS - Apprenticeship

Booth #: 3720

Acuren

Booth #: 1752

Aegis Onshore, Inc.

Booth #: 540

AES

Booth #: 1915

Aggreko, LLC

Booth #: 4433

Alltite, Inc.

Booth #: 1449

Altura, a division of IRISNDT

Booth #: 535

American Clean Power - ACP

Booth #: 1941

American Wire Group

Booth #: 635

Vendor for wire and cable services: cable management, cable engineering and design, supply chain procurement, logistics, and transportation, and emergency response services.
