# A list of wind-related businesses exhibiting at the premier clean-energy trade show.

With CLEANPOWER 2024 focusing on wind energy, solar energy, and battery storage, looking for wind-only or wind-hybrid businesses might be challenging. To help with your show decisions, Wind Systems offers this list of wind-related businesses exhibiting at the show along with their booth numbers.

The highlighted companies are part of the Wind Systems community, our online resource for locating products and

services that are exclusive to the wind-energy industry. These companies also have their wind-focused expertise and contact information included here.

If you'd like to be a part of our community section and have your company highlighted for our May issue that will be distributed at CLEANPOWER, contact Kendall DeVane at [kendall@windssystemsmag.com](mailto:kendall@windssystemsmag.com).

For any late booth additions or changes, please refer to the floorplan at [cleanpower.org/expo](http://cleanpower.org/expo).

## 3S Lift

Booth #: 1028

## ABS Wind

Booth #: 840

## AC883 Nordic Trade Services

Booth #: 434

## Aegis Onshore, Inc.

Booth #: 3427

## Aerones

Booth #1238

## Altura, a division of IRISNDT

Booth #: 848

## American Clean Power

Booth #: 2027

## American Wire Group

Booth #: 1448

Vendor for wire and cable services: cable management, cable engineering and design, supply chain procurement, logistics, and transportation, and emergency response services.
